## KAYAKING & SNORKELING

Hong island stands out as one of the most beautiful island of the Andaman Coast.

In the center of this island there lies a hidden lagoon, where the tranquility and beauty is breathtaking.

Hong Island is a popular sport area for local fisherman and also where bird nests are collected. The coral reefs here are amazing and siphons can also be fouled here.

Naturally, there is an abundance of brightly colored tropical fish to be found here too.
